Translating and Consulting Services (since 1983)

11th July, 2013

Ref:13DON10

ESPS Manuscript NO: 3172

I have been an English language teacher and translator since 1983 and have worked at the University of Catania in the schools of medicine and surgery, physics and biology for the last 25 years and have done uncountable translations and corrections of medical-scientific texts regarding all the fields of this interesting and ever evolving area of scientific development. I have been a consultant on numerous Italian and international projects (EU framework) and developer of on-line and off-line language teaching programmes. I have worked as a translator for Italian and international companies, universities and research councils regarding scientific texts that have been published in internationally renowned journals and books.

As regards **ESPS Manuscript NO: 3172**, I was asked to make the necessary corrections to the English language; this I have done and the ms is now grade A.

Should you need any further information about this ms, please do not hesitate to contact me via email.

A.P.Bridgewood
