

Barcelona, July 29 2013

Dear Editor,

I promise that the language of the manuscript 3186 entitled "Outcome in obscure gastrointestinal bleeding after capsule endoscopy" has reached Grade A, as it has been reviewed by a native English speaker.

A handwritten signature in black ink, consisting of a large, stylized 'A' followed by 'lex' and a horizontal line with a small flourish at the end.

Alex Cañas-Ventura MD
