**Comments from Reviewer 1**

This is a straightforward and easy reading manuscript. All data are adequately presented, however, in order to improve the manuscript I suggest to add a graphic. Minor comment: Page 7, please correct the word “preogression”

**Comments to Reviewer 1**

Reviewer 1 recommends accepting the manuscript after some minor comment. Additionally, we have added a graphic as suggested by the reviewer.

**Comments from Reviewer 2**

This is an excellent review about the statin therapy in aortic stenosis. This manuscript is nicely structured and well written. I have one minor comment about this manuscript. Please consider the following comment. (Comment) 1. Page 7, line 6 The authors probably make a mistake. Correct “AS preogression” to “AS progression”.

**Comments to Reviewer 2**

Reviewer has got just one minor comment of misspelling. We have revised according to the suggestions made by the reviewer.
