**Manuscript NO:** 32463

**Manuscript Type:** Case Report

Two case reports of acute upper GI bleeding from duodenal ulcers after Roux-en-Y gastric bypass surgery for morbid obesity: endoscopic diagnosis and therapy by single balloon or push enteroscopy after missed diagnosis by standard EGD because of technical inability to intubate the excluded proximal duodenum

Seifeldin Hakim, Srinivas R Rami Reddy, Mihaela Batke, Gregg Polidori, Mitchell S Cappell

#### Abstract

The diagnosis and opportunity for endoscopic therapy of gastric or duodenal lesions may be missed at esophagogastroduodenoscopy (EGD) because of
