The manuscript has been improved according to the following suggestions:

### Revisions according to Editor's suggestions:

1. The required Editorial Certificate for manuscripts submitted by non-native speakers of English was provided by the American Journal Experts Company and uploaded in the dedicated section (Certificate Verification Key n° CB1F-4667-14C6-E67A-89EA). All suggested corrections were applied to improve diction, phrasing, grammar, and spelling.
2. The scientific research process file has been uploaded.
3. ESPS Manuscript NO was added (32644)
4. The missing post code (60126 Ancona , Italy) has been added.
5. The audio core tip file has been uploaded
6. All authors abbreviation names and manuscript title here have been added as required
7. "Comments" section was added after the "discussion" section as requested by Editor.

**Revisions according to Reviewer's code 02451447 suggestions:**

1. No major or minor comments have been made by the reviewer (*"The study is well designed and the data are convincing"*).

**Revisions according to Reviewer's code 00051373 suggestions:**

1. We modified the running title according to the reviewer comment. The new running title is *"Pre-LT predictors of HCC recurrence"* instead of *"Predictors of HCC recurrence after LT"*

**Revisions according to Reviewer's code 01560464 suggestions:**

1. We reclassified the manuscript in the form *"Retrospective cohort study"* instead of *"Retrospective study"*

Thank you again for considering our manuscript for publication in the *World Journal of Gastroenterology*.

Sincerely yours,

***Daniele Nicolini, MD, PhD.***
