

24th June 2013

Dear Editor

We would like to confirm that ESPS manuscript no 3287 has been checked for English language and all necessary editions, deletions and ammendments have been made by a native English Speaker (One of our authors, Prof.Dr. Khalid Rahman from Liverpool John Moores University, England). We are now confident that our manuscript reaches the standard of grade A and we hope that our manuscript is now acceptable for publication in a future issue of World Journal of Gastroenterology.

Yours Sincerely

Dr Adnan Adil Hismiogullari
