Professor Damian Garcia-Olmo, MD, PhD
Editor-in-Chief
World Journal of Gastroenterology

Dear Professor Garcia-Olmo,

This is to confirm that we have read and edited the article titled *Distinct gut microbiota profiles in patients with primary sclerosing cholangitis and ulcerative colitis*, which was sent for review by the corresponding author, Dr Pavel Drastich, MD. PhD. We returned the revised manuscript to the authors for their final preparation and submission to the *World Journal of Gastroenterology*.

The manuscript has been carefully reviewed by an experienced editor whose first language is English and who specializes in editing papers written by scientists whose native language is not English. We certify that the manuscript expresses the authors' work clearly and those involved in peer review will be able to make their decision to publish based on its scientific merit.

Sincerely,
Clement Weinberger, PhD
