Evolution of associating liver partition and portal vein ligation for staged
hepatectomy: The simpler, safer and equally effective methods

Shu You Peng, Xu An Wang, Cong Yun Huang, You Yong Zhang, Jiang Tao Li, De Fei
Hong, Xiu Jun Cai

Abstract

Associating liver partition and portal vein ligation for staged hepatectomy (ALPPS) has been recently demonstrated as a method to induce rapid and extensive hypertrophy within a short time and has been employed for a variety of primary and metastatic liver tumors. However, controversies remain due to its high morbidity and mortality. To
