Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 3327-edited.doc).

Title: Pancreatitis in Patients with Pancreas Divisum: Imaging Features at MRI and MRCP

Author: Deng-Bin Wang, Jinxing Yu, Ann S Fulcher, Mary A Turner

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 3327

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated

2. Revision has been made according to the suggestions of the reviewer

(1) Q1: "Recurrent acute pancreatitis is not a defined concept for pancreatitis. It is either acute pancreatitis or chronic pancreatitis. You should clarify which criteria your diagnosis was based on."

A1: The recurrent acute pancreatitis was defined in this study as a clinical setting in which the clinical or/and serologic features were characteristic of acute pancreatitis with a history of recurrence at least 2 times. It was described in Materials and Methods of the manuscript.

3. References and typesetting were corrected.

4. The present study was performed in the Medical Center of Virginia Commonwealth University under the supervision of Dr. Yu and Dr. Fulcher (who is the Chair of the Department of Radiology). The manuscript had been revised by the American co-authors

several times when it was finished half a year before. And this time I sent to them the manuscript (3327-edited.doc) with the comments from the reviewers and the requirements from the Editor of the WJG. Dr.Yu and his secretary revised the manuscript again with the requirements not only for scientific purpose but also for language polishing (please see the attached certificate). Eventually I carefully revised the manuscript according to the format of WJG. Therefore, I believe that it could meet the publishing criteria of language with the efforts from the native speakers of English as co-authors of this manuscript. Dr. Yu has already emailed me a specific certificate of language revision which I will send to you.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Deng-Bin Wang, MD, PhD. Chair and Professor,

Department of Radiology, Xinhua Hospital,
