Name of Journal: World Journal of Virology

ESPS Manuscript No: 3374

Title: Does prophylactic antidepressant treatment boost interferon-alpha treatment completion in HCV?

Authors (typed): Rowan PJ

I agree to transfer all rights of the manuscript to Baishideng Publishing Group Co.

This manuscript is not duplicately submitted.

There is no plagiarism in this manuscript nor redundant publication, data fabrication, or falsification.

There is no fabricated or falsified data in my manuscript; as this analysis analyzes published outcomes data, all data are readily accessible.

There are no prior or duplicate publications.

This manuscript does not contain contents that are stolen from the work of others.

There is no debate over authorship.

There are no conflicts of interest.

As this was an analysis based upon published outcomes, and not a study conducted with study participants, there was no research ethics review.
