

PEER-REVIEW REPORT

Name of journal: World Journal of Gastroenterology

Manuscript NO: 33954

Title: Autophagic cell death induced by reactive oxygen species is involved in hyperthermic sensitization to ionization radiation in human hepatocellular carcinoma cells

Reviewer's code: 00722166

Reviewer's country: Italy

Science editor: Yuan Qi

Date sent for review: 2017-04-10

Date reviewed: 2017-04-28

COMMENTS TO AUTHORS

Hepatocellular Carcinoma is still object of research and this paper add some information on the mechanism of hyperthermic sensitization of cancer cells to ionization radiation. The manuscript is well written, minor language editing is required. Thank you for the opportunity to evaluate this work.
