First of all, I would like to thank to all authors for this study. GISTs are most common problems in medical practice and there are so many clinical approach was described in the literature. 224 patients' was enrolled this study (who have GISTs) and this is an adequte number for a conclusion about GISTs. I would like to accept this well written article.

Reply: We would like to thank the reviewer for his/her kindly approval.
