Hello,

I hope this email finds you well. My comments/questions below:

1. References have been updated to include all authors, PMID, and DOI for ePub. Sorry for our delay, but with nearly 100 references, that took time to PubMed them all again.
2. COI signed
3. What file format would you like the audio core tip? It was previously saved in one of your three accepted formats and reviewers were not able to open it. Would you like me to email to you prior to uploading?
4. Reviewers would like us to include images/diagrams that have not been grouped; however, these were not made it Microsoft. Why do the individual components of the images images need to be moveable?
5. Only one reviewer assessed our paper. The second reviewer listed in our account is not discussing our paper. Could you please review.

Thank you for your prompt response. We look forward to submitting soon.

Whitney Wallis
