COMMENTS TO AUTHORS

The manuscript entitled "The Epidemic of Non-Alcoholic Fatty Liver Disease and Hepatocellular Carcinoma" is a review analyzing the role played by NAFLD in HCC. The authors take into consideration the great impact of the current pathologies (obesity, diabetes) linked to dietary disorder to development of HCC. The manuscript is well performed, but a deeper analysis on the pathogenesis and prevention of NAFLD will be helpful to complete the review. Moreover a summary picture will facilitate the reader to understand the phases of pathology.

COMMENTS TO AUTHORS

"The Epidemic of Non-Alcoholic Fatty Liver Disease and Hepatocellular Carcinoma" review provides good information and covers various aspects of NAFLD and HCC. Comments: • 70-80% of the references should be between 2010 and 2017 in order to cover the latest information. • There are many typos in the manuscript, which needs to be corrected. • Check the references for proper format.
