Epidemiological and clinical perspectives on irritable bowel syndrome in India, Bangladesh, and Malaysia: A review

Rahman MM *et al.* IBS in India, Bangladesh, and Malaysia

M Masudur Rahman, Sanjiv Mahadeva, Uday C Ghoshal

Abstract

Irritable bowel syndrome (IBS) is a common chronic gastrointestinal disorder in clinics and in the community. It has a significant impact on both the society and patients' quality of life. The epidemiology, clinical presentation, and management of IBS may vary in different geographical regions due to differences in diet, gastrointestinal infection, socio-cultural and psycho-social factors, religious and illness beliefs, symptom perception and reporting. Although previous reviews and consensus reports on IBS in
