COMMENTS TO AUTHORS

It is a manuscript on vaccinations in pediatric IBD. Minor comments: 1. Please discuss more clearly the follow up schedule after vaccination. 2. Please provide instructions for intensified vaccination schedule in selected cases. 3. Please add in your references all existing guidelines in vaccinations.

COMMENTS TO AUTHORS

The review on the subject vaccination in children with IBD is very good, however there is an overuse of unknown acronyms. I have two questions that were described in the methodology: the inclusion of review articles and the immunization in adults considering the objective of these study.
