

INFORMED CONSENT STATEMENT

Name of Journal: *World Journal of Orthopedics*

Manuscript NO: 35509

Manuscript Type: *Retrospective study*

Title: Mediastinal node staging by CT-PET and selective EUS-FNA for patients with upper gastrointestinal cancer: Results from a regional centre

Author list: Chris Harrington, Stuart Paterson, Lyn Smith, Jennifer Bisland, Elisabet López González, Neil Jamieson, Adrian John Stanley

Informed consent statement: As this retrospective study was accepted to be an audit project, with anonymised data and no intervention for any patient, informed consent from patients was not required.

Correspondence to: Adrian John Stanley, BM BCh, FRCP (C), MD, Associate Professor, Doctor, Consultant Gastroenterologist, Gastroenterology Department, Glasgow Royal Infirmary, Castle Street, Walton Building, Glasgow G4 0SF, United Kingdom.
