Mediastinal node staging by <sup>5</sup>positron emission tomography-computed tomography and selective endoscopic ultrasound with fine needle aspiration for patients with upper gastrointestinal cancer: results from a regional centre

Chris Harrington, Lyn Smith, Jennifer Bisland, Elisabet López González, Neil Jamieson, Stuart Paterson, Adrian Stanley

Abstract

AIM

<sup>10</sup>To investigate the impact of EUS-FNA and PET-CT in the nodal staging of upper GI cancer in a tertiary referral centre.

METHODS
