### COMMENTS TO AUTHORS

The manuscript is well written, but " the fundus of stomach " as the site for operating the endoscope is better to be described as " the body of stomach".

### COMMENTS TO AUTHORS

The authors conducted a detailed review of linear EUS imaging techniques of gallbladder. This manuscript is generally nicely written; however, I have a minor concern to this manuscript. 1. As described in this manuscript, the only station which may not reproduce the gallbladder images is from the duodenal bulb. Please discuss more about this point and the authors may show some cases.
