

June 10, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (3581_review.doc).

Title: HBV endemicity in Mexico is associated to HBV genotype H and G

Author: Sonia Roman and Arturo Panduro

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 3581

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

- Document is sent in doc version
- Genotype nomenclature was revised
- Word size (10) and spacing was corrected
- Figure 1 was arranged as requested

2 Revision has been made according to the suggestions of the reviewer and are highlighted in yellow when required

- Abstract was reduced to less than 200 words
- Redundancy was eliminated in several paragraphs by re-phrasing
- Arguments were made by established information to avoid speculation
- Subtitles were included to facilitate reading
- Abstract, core tip and conclusions were re-written to match improved arguments

3 References and typesetting were corrected

- References on Page 5 were separated as indicated
- References that were out of main text were included.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Arturo Panduro MD, PhD
