Endoscopic balloon dilation of crohn's disease strictures-safety, efficacy and clinical impact

Lopes S *et al.* Endoscopic dilation in crohn's disease

Susana Lopes, Eduardo Rodrigues-Pinto, Patricia Andrade, Joana Afonso, Todd H Baron, Fernando Magro, Guilherme Macedo

Abstract

AIM

Endoscopic balloon dilation (EBD) is a recognised therapeutic intervention for crohn's disease (CD) strictures. Data are limited due to lack of long-term outcome and small cohorts. Our aim was to evaluate the incidence of anastomotic strictures after intestinal resection in CD, demonstrate long-
