COMMENTS TO AUTHORS

This is a well written study about liver failure. I have some suggestions. 1- Is the number of monkeys enough? 2- "ALF can be triggered by various endopathogens".(Breast J. 2017 Jun 7. doi: 10.1111/tbj.12838.) and (Prague Med Rep. 2016;117(4):145-152. doi: 10.14712/23362936.2016.15. Review.) I suggest both of these uptodate studies for the references.
