Prof Ke Chen

Science Editor, Editorial Office

**Baishideng Publishing Group Co., Limited**

Dear Prof Chen,

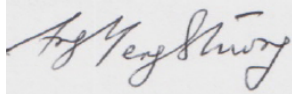

Re: ID number of editorial board member, UK – Dr Yeng S Ang – 0027412 and author number 00006607 - Gastric endoscopic submucosal dissection as a treatment for early neoplasia and for accurate staging of early cancers in a UK Caucasian population (**Manuscript NO.:** 36162)

Thank you for your email to invite me to re-submit this article with the offer of free publication if it is accepted. I am writing to submit our work which aims to investigate the efficacy of endoscopic submucosal dissection (ESD) at diagnosing and treating superficial neoplastic lesions of the stomach in a UK Caucasian population. This study provides early evidence for the efficacy of ESD as a therapeutic and diagnostic intervention in Caucasian populations and supports its application in the UK. The 4 reviewers' comments have been fully addressed in our rebuttal letter, together with the revised manuscript.

We hope you will now accept our paper for publication in World Journal of Gastrointestinal Endoscopy.

Thank you.

Sincerely

A handwritten signature in black ink, appearing to read 'Dr Yeng S Ang', is displayed within a light gray rectangular box.
