Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 3619-review.doc).

Title: Role of stem cells in repair of liver injury: experimental and clinical benefit of transferred stem cells on liver failure

Author: Mukaddes ESREFOGLU

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 3619

The manuscript has been improved according to the suggestions of reviewers:

- 1 'The' is deleted from the Title: **Role of stem cells in repair of liver injury: experimental and clinical benefit of transferred stem cells on liver failure**
- 2 Detailed address of corresponding author is added
- 3 A brief summary less than 100 words is added
- 4 Marked main and secondary titles are indicated in the text
- 5 Extra spaces are deleted throughout the text
- 6 'Three primary growth factors, shown to be potent mitogens, associated with normal hepatic regeneration are hepatocyte growth factor (HGF), epidermal growth factor (EGF), and transforming growth factor- α (TGF- α) [71-73]' is revised as: 'Hepatocyte growth factor (HGF), epidermal growth factor (EGF), and transforming growth factor- α (TGF- α), shown to be potent mitogens, are primarily associated with normal hepatic regeneration' [71-73]

Thank you again
Gastroenterology.

for publishing our manuscript in the *World Journal of*

Sincerely yours,

Prof. Mukaddes Esrefoglu
