Subject: Non-Native Speakers of English Editing Certificate

Dear Editor

Even if no author is native English speaker, the manuscript has been carefully reviewed and corrected by Andrea Taddio, who recently worked for one year at the Children Hospital in Toronto, Canada and Sara Lega who worked for the past six months at the Mount Sinai Hospital in New York, USA. We thus believe that the English level of our manuscript is good enough and doesn't need the review from a native English speaker.

Thank you in advance

Sincerely yours

Alberto Tommasini
