

# INFORMED CONSENT STATEMENT

---

**Name of Journal**

World Journal of Hepatology

**Manuscript number**

36787

**Manuscript title**

Risk factors for hepatic steatosis in adults with cystic fibrosis: similarities to non-alcoholic fatty liver disease

**Informed consent statement**

Patients were not required to give informed consent to the study because this was a retrospective analysis without direct patient intervention. Data were gathered and processed respecting institutional privacy protocols. The attached IRB provides for a waiver-of-informed-consent for our study.

Sincerely,

A handwritten signature in black ink, appearing to read 'Fares W. Ayoub', with a long horizontal flourish extending to the right.
