

Date: December 10, 2017

Dear Editor:

Enclosed please find a manuscript entitled "Neuroendocrine Carcinoma of the Gastric Stump: Case Report and Literature Review" for your consideration for publication in the *World Journal of Gastroenterology*.

This is an interesting and rare case report of a neuroendocrine carcinoma of the gastric stump. As you said that minor language revision is required, I have consult to a company specializing in language polishing. They have modified and polished the language and said that the language of the paper has reached standards to be published. All of the revisions of language are highlighted in the updated version of the manuscript.

I have provided the grant application certificate of funding agency. The ORCID numbers of all authors have been added. I have finished the part of article highlights following your reminder. The 9th reference is wrong, and I have revised it.

Best Regards.

Yan-Tao Tian
