## CERTIFICATE OF FINATIATION

To whom it may concern:

TITLE OF THE STUDY: "Translational pancreatic cancer research: A comparative study on patient-derived xenograft models"

CHIEF INVESTIGATION: Mercedes Rubio-Manzanares Dorado

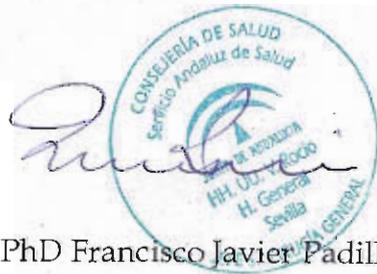

General Surgery Service. Virgen del Rocio Hospital, Seville,  
Seville Province, Spain.

This letter is to certify that the paper called "Translational pancreatic cancer research: A comparative study on patient-derived xenograft models" has been developed thanks to the funds obtained through FISEVI foundation (Andalusian Public Foundation for the Management of Health Research in Seville). FISEVI is a non-profit organization whose main objective is the management of health research in hospitals and public research centers in the province of Seville, as well as professionals who develop their care and / or research activities at those hospitals

Dr. Francisco Javier Padillo Ruiz, Chief Director of General and Digestive Surgery Service, through this document certify that the study "Translational pancreatic cancer research: A comparative study on patient-derived xenograft models" whose main investigator is Dr. Mercedes Rubio-Manzanares Dorado, is financed with the funds currently available to the General and Digestive Surgery Service at FISEVI.

Seville on January 15, 2018.
