

November 29th, 2017

Dear Editor,

I, dr. prof. Zilvinas Dambrauskas, as the head of the Center of Evidence Based Medicine at the Lithuanian University of Health Sciences and the course director of the several courses on EBM and medical statistics certify that statistical analysis of the article entitled:

"The narrow line between benefit and harm: additivity of hyperthermia to cisplatin cytotoxicity in different gastrointestinal cancer cells"

were performed by dr. Vaidotas Cesna and Arturas Sukovas under close supervision and verified in the Evidence Based Medicine Centre of the Lithuanian University of Health Sciences.

This certificate is delivered to any concerned person for any purpose, for which it may be required.

Sincerely yours,

Zilvinas Dambrauskas, MD, PhD  
Department of Surgery  
Lithuanian University of Health Sciences
