

July 10, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 3787-edited.doc).

Title: Nonalcoholic fatty liver disease is associated with benign gastrointestinal and pancreato-biliary disorders

Authors: Srinevas K. Reddy MD, Min Zhan, H. Richard Alexander, and Samer S. El-Kamary

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 3787

The manuscript has been improved according to the suggestions of the editor. All text edits have been highlighted in the edited manuscript. We have also included the copyright form signed by all authors. Specific answers and corresponding text revisions to the editor's comments include the following:

1. The authors of this manuscript are all native speakers of English. Thus, a language certificate is not required.
2. The title page has been revised to fit the journal's format.
3. The abstract has been revised to fit the journal's word count requirements.
4. A "core tip" has been included.
5. As instructed by the editor, a comment section has been added. The "Peer Review" portion has been left blank for insertion of reviewer and editor comments.
6. We have added PMID and doi numbers to each reference.
7. We have edited the Figure such that the figure itself is presented as a powerpoint slide so that it can be edited by the publisher to fit the format of the journal

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely,

Srinevas K. Reddy
