

Respectful Reviewers

Thank you for considering this "Letter to the Editor " entitled "**Should hot biopsy forceps be abandoned for polypectomy of diminutive colorectal polyps?**" V. Panteris, A. Vezakis, J.K Triantafillidis.

I have followed your instructions and made the appropriate revisions:

1. Abstract has been shortened by 45 words.
2. Table with articles cited in ESGE guidelines has been added
3. Sentences in main text: "HBP have contributed to the prevention of colon cancer through the eradication of DCPs and is still a very popular method " has been deleted and revised
4. Conclusion has been added in main text

Yours Sincerely

Vasileios Panteris
