**Successful stent-in-stent dilatation of the common bile duct through a duodenal prosthesis, a novel technique for malignant obstruction: Case report**

**Gurjiwan Singh Virk, Nour A Parsa, Juan Tejada, Muhammad Sohail Mansoor, Sven Hida**

### Abstract

For patients suffering from both biliary and duodenal obstruction, ERCP (endoscopic retrograde cholangiopancreatography) with stent placement is the treatment of choice. ERCP through an already existing duodenal prosthesis is an uncommon procedure and furthermore no studies have reported installing a covered metal stent (CMS) onto an
