Laparoscopic gastrojejunostomy for gastric outlet obstruction in patients with unresectable hepatopancreatobiliary cancers: A personal series and systematic review of the literature

Manuel-Vázquez A *et al.* LGJ for GOO in patients with unresectable HPB cancers

¹Alba Manuel-Vázquez, Raquel Latorre-Fragua, Carmen Ramiro-Pérez, Aylhin López-Marcano, Roberto De la Plaza-Llamas, José Manuel Ramia

Abstract

The major symptoms of advanced hepatopancreatic-biliary cancer are biliary obstruction, pain and gastric outlet obstruction (GOO). For obstructive
