

3556 Tobel Springs Dr. • Las Vegas, NV 89129 USA • www.WriteScienceRight.com

April 9, 2018

To Whom It May Concern:

The purpose of this letter is to certify that Dr. Miguel Marcos recently received a professional English language editing service from our company, Write Science Right™, for a paper entitled "*The Role of MicroRNAs in Alcohol-Induced Liver Disorders and non-Alcoholic Fatty Liver Disease*" (order # 180329-1). All grammatical/syntactical errors and awkward verbiage have been revised to make the paper ready to submit for publication review. The paper was generally well organized as submitted, requiring no deep structural editing. Feel free to contact me if you have any questions.

Best Regards,

A handwritten signature in dark ink, appearing to read "Ann EPS", with a long horizontal stroke extending to the right.
