Liver transplantation and atrial fibrillation: A Meta-analysis

Ronpichai Chokesuwattanaskul, Charat Thongprayoon, Tarun Bathini, Patompong Ungprasert, Konika Sharma, Karn Wijampreecha, Pavidia Pachariyanon, Wisit Cheungpasitporn

Abstract

AIMs: (1) To assess prevalence of pre-existing atrial fibrillation (AF) and/or incidence of AF following liver transplantation, and the trends of patient's outcomes overtime. (2) To evaluate impact of pre-existing AF and post-operative AF on patient outcomes following liver transplantation.

METHODS: A literature search was conducted utilizing MEDLINE, EMBASE and Cochrane Database from inception through March 2018. We included studies that reported 1) prevalence of pre-existing AF or incidence of AF following liver
