SPECIFIC COMMENTS TO AUTHORS

It is a well written article about T cell markers and ACS. There are a lot of spelling and gramatical errors.

SPECIFIC COMMENTS TO AUTHORS

Liberale et al provided a succinct summary and prospective views on the field of adaptive immunity in ACS in light of the publication by Angelini et al in Eur Heart J. The article is timely and well written. I would commend the authors' effort. Minor points: - use MMP-9 throughout the text for abbreviation (mixed MMP-9 and MMP9 in

current version) - correct typo "Angelini et coll" in the beginning of the paragraph under "Perspectives" and other places as well - Acute coronary syndrome (ACS) including unstable angina and myocardial infarction (non-ST elevation myocardial infarction and ST elevation elevation myocardial infarction). The text should make this definition clear.
