

Dear Editor,  
World J Gastrointestinal Endoscopy

The authors wish to thank you for potentially accepting our manuscript titled, “*ERCP in Cirrhosis - A systematic review and meta-analysis focused on adverse events*”, for publication in your esteemed journal.

We have corrected the manuscript, as per editors’ suggestions, and including our responses below.

Comment 1: We checked the paper by crosscheck, there are similar sentences (highlighted in the report) with other articles, please see details on the crosscheck report and rewrote these sentences.

Authors’ Reply: The authors have carefully edited/re-written the sentences.

Comment 2: Please provide the author contributions. Authors must indicate their specific contributions to the published work. This information will be published as a footnote to the paper. See the format in the attachment file-revision policies.

Authors’ Reply: Author contributions have been added.

Comment 3: Please offer all ORCID number like this: Charles H Halsted (0000-0001-6711-887X); Charles H Halsted ([0000-0001-6711-887X](#)).

Authors’ Reply: ORCID numbers have been added.

Comment 4: *AIM* (no more than 20 words) The purpose of the study should be stated clearly and with no or minimal background information, following the format of: “To investigate/study/determine...”

Authors’ Reply: AIM has been added to the revised manuscript abstract.

Comment 5: Please write a summary of no more than 100 words to present the core content of your manuscript, highlighting the most innovative and important findings and/or arguments. The purpose of the Core Tip is to attract readers’ interest for reading the full version of your article and increasing the impact of your article in your field of study.

Authors’ Reply: CORE TIP has been added to the revised manuscript.

Comment 6: Please offer the audio core tip, the requirement are as follows:

In order to attract readers to read your full-text article, we request that the first author make an audio file describing your final core tip. This audio file will be published online, along with your article. Please submit audio files according to the following specifications:

Acceptable file formats: .mp3, .wav, or .aiff

Maximum file size: 10 MB

To achieve the best quality, when saving audio files as an mp3, use a setting of 256 kbps or higher for stereo or 128 kbps or higher for mono. Sampling rate should be either 44.1 kHz or 48 kHz. Bit rate should be either 16 or 24 bit. To avoid audible clipping noise, please make sure that audio levels do not exceed 0 dBFS.

Authors' Reply: AUDIO CORE TIP has been added to the revised manuscript.

Comment 7: The reference numbers should be superscripted in square brackets at the end of the sentence.

Authors' Reply: All references have been added as square brackets superscript, to the revised manuscript.

Comment 8: Table 2 should appear before table 3, please correct it.

Authors' Reply: The sequence of tables 2 and 3 has been corrected.

Comment 9: The guidelines for writing and formatting Article Highlights are as follows:

1 Research background

The background, present status, and significance of the study should be described in detail.

2 Research motivation

The main topics, the key problems to be solved, and the significance of solving these problems for future research in this field should be described in detail.

3 Research objectives

The main objectives, the objectives that were realized, and the significance of realizing these objectives for future research in this field should be described in detail.

4 Research methods

The research methods (*e.g.*, experiments, data analysis, surveys, and clinical trials) that were adopted to realize the objectives, as well as the characteristics and novelty of these research methods, should be described in detail.

5 Research results

The research findings, their contributions to the research in this field, and the problems that remain to be solved should be described in detail.

6 Research conclusions

The following questions should be briefly answered:

What are the new findings of this study?

What are the new theories that this study proposes?

What are the appropriate summarizations of the current knowledge that this study provided?

Authors' Reply: ARTICLE HIGHLIGHTS section has been added.

Comment 11: Please add PubMed citation numbers and DOI citation to the reference list and list all authors. Please provide PubMed citation numbers for the reference list, e.g. PMID and DOI, which can be found at <http://www.ncbi.nlm.nih.gov/sites/entrez?db=pubmed> and <http://www.crossref.org/SimpleTextQuery/>, respectively. The numbers will be used in the E-version of this journal. Thanks very much for your co-operation.

Authors' Reply: The PMID, and DOI information has been added to the references.

Comment 11: Please add ref number for all cited references. Table 2

Authors' Reply: Reference numbers have been added in Table-2, as suggested

Comment 12: Please add ref number for all cited references. Table 3

Authors' Reply: Reference numbers have been added in Table-3, as suggested

Comment 13: Please add ref number for all cited references. Table 4

Authors' Reply: Reference numbers have been added in Table-4, as suggested

Comment 14: Please provide the decomposable figure, whose parts are movable and words can be edited.

Authors' Reply: Decomposable figure is being submitted as a separate file, as suggested

Comment 15: Please mark the location of figure 9 in the text. Thank you.

Authors' Reply: Figure-9 location has been marked in the text.

Also please note that we have already submitted the copyright statement with initial submission, which was assigned manuscript ID 38087. Later, we were suggested to submit our revision under a new ID 40322 (since old link had expired). We are attaching the previous Copyright statement again with this submission.

The authors appreciate your time and assistance, and honor our association with your journal.

Sincerely,

Harmeet S. Mashiana, Mohit Girotra and Douglas G. Adler
