**Mesh migration into the sigmoid colon after inguinal hernia repair  
presenting as a colonic polyp : A case report and review of literature**

Sha Liu, Xin-Xin Zhou, Lin Li, Mo-Sang Yu, Hong Zhang, Wei-Xiang Zhong,  
Feng Ji

**Abstract**

Mesh migration and penetration into abdominal viscera rarely occur after laparoscopic inguinal hernia repair. We present the first case of mesh migration into the sigmoid colon identified as a colonic polyp at initial colonoscopic examination. The patient complained of mild abdominal distention in the lower abdomen over the previous year without changes in bowel habits or stool appearance and without weight loss. By complementary
