Tutor | Director of Studies in Biological Natural Sciences | Praelector
University Reader in Cell Physiology

Selwyn College Cambridge

27 August 2018

miRNA and platelet genetic machinery

This manuscript has been read and edited for English language by myself as a collaborator of Dr Redondo.

I was educated at the University of Cambridge and have published 100 original articles as well as many reviews and book chapters in my native English language.

I have served on the Editorial Board of *Cell Calcium* for 25 years and for 7 years was on the Editorial Board of the *Journal of Physiology*, which included 3 years as Editor-in-Chief.

A handwritten signature in black ink, appearing to read 'Stewart O. Sage'.

Dr. Stewart O. Sage

Reader in Cell Physiology

University of Cambridge

Department of Physiology, Development & Neuroscience

Fellow of Selwyn College
