

INFORMED CONSENT STATEMENT

Name of Journal: World Journal of clinical cases

Manuscript NO: 41009

Manuscript Type: Retrospective Study

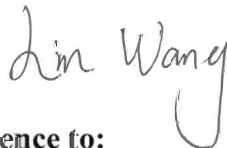

Manuscript Title:Declining diagnostic accuracy of non-invasive fibrosis tests is associated with elevated alanine aminotransferase in chronic hepatitis B.

Authors Lists:

Lin Wang, Yao-Xin Fan and Xiao-Guang Dou

Informed consent statement: Patients were not required to give informed consent to the study because the analysis used anonymous data that were obtained after each patient agreed to treatment by written consent.

Sincerely,

Lin Wang
