

As a native English speaker, I hereby declare that I do not desire to have my manuscript undergo revisions and editing by one of your selected proofreading companies. The submitted original research article has been written and undergone revisions by several native English speakers, including myself, and I have little doubt that it should meet the Journal's English language criteria. The manuscript number is #4101 and titled "Establishing a Quality Indicator Format for Endoscopic Ultrasound".

I look forward to updates about the article's final publication status.

Sincerely,  
Benjamin Bluen
