

I, Dermot Erskine, hereby certify that all language problems in the manuscript have been addressed. The grammar, spelling, usage of articles, prepositions, conjunctions, abbreviations, punctuation, italic font of Latin words, tenses, active voice and passive voice, and sentence structure are all of a sufficiently high standard for publication. The academic rules, norms, scientific conduct, details of the materials and methods, manuscript integrity, logical organization of the Introduction, Results and Discussion sections, and image features have also been applied to an equally high standard. The team responsible all have at least C1 level English, and several have C2, having presented contributions in the leading congresses in their specialities in English for decades.

I have a background in Materials Science and English teaching with twenty-eight years' experience in translating (Spanish to English), correcting (Technical English texts) and reviewing chapters in Handbooks and Text books for Universities (University of Cantabria, PaísVasco, Lleida, Granada) and Publishers.
