Title: Prognostic significance of perioperative serum tumor marker levels in patients with stage II/III gastric cancer treated with curative gastrectomy: a multiinstitutional dataset analysis

Manuscript number: 41442

Corresponding author: Mitsuro Kanda, MD, PhD, FACS, Department of Gastroenterological Surgery (Surgery II), Nagoya University Graduate School of Medicine, Japan.

This letter is to confirm that I have read the ethics application prepared for this study and that in my opinion the statistical methods and techniques mentioned are appropriate for the research.

Please contact me if you have any queries.

Sincerely,

Sign Kenta Murotani
