Post-appendectomy pelvic abscess with extended-spectrum beta-lactamase  
producing *Escherichia Coli*: A case report and review of literature

Andrew Tse, Rajkumar Cheluvappa, Selwyn Selvendran

## Abstract

### BACKGROUND

Appendicitis, the inflammation of the appendix, is the most common abdominal surgical emergency requiring expedient surgical intervention. Extended-spectrum beta-lactamases (ESBLs) are bacterial enzymes that catalyse the degradation of the
