SPECIFIC COMMENTS TO AUTHORS

In this case report a unique form of palliation of bowel obstruction is presented, namely in a patient with recurrent intra-stent tumor ingrowth the positioning of a third stent-in-stent was carried out successfully. The availability of bowel stenting is very

important in case of CRC patients with colon obstruction, and this team showed us that performing in-stent restenting may be a possible therapeutic option for patients suffering for inoperable CRC. I have only one technical question: why was not a relieving stoma performed in this patient? Because of the carcinosis?

SPECIFIC COMMENTS TO AUTHORS

Congratulations on your success in this case. There are a few modifications to be made:

- please specify when exactly the therapy with Bevacizumab was introduced.
- minor English review (mostly rephrasing).
- please update the references.
