*Observational Study*

**High prevalence of occult hepatitis C infection in predialysis patients**

<sup>4</sup> Luís Henrique Bezerra Cavalcanti Sette, Edmundo Pessoa de Almeida Lopes, Nathália Campello Guedes dos Anjos, Lucila Maria Valente, Sávio Augusto Vieira de Oliveira, Norma Lucena-Silva

**Abstract**

**BACKGROUND**

Occult hepatitis C (HCV) infection (OCI) may be associated with extrahepatic diseases and it is known that the patients with chronic kidney disease (CKD) who are on hemodialysis (HD) present a higher prevalence of this type of infection than the general population, with a worse clinical outcome. However, there are no data in the literature to assess the presence of OCI in patients prior
