### SPECIFIC COMMENTS TO AUTHORS

The manuscript by Dobszai and colleagues represents a timely contribution to the question how the body mass index (BMI) is influencing the outcome of acute pancreatitis (AP). They conducted a meta-analysis by following the strict rules how to execute such

### SPECIFIC COMMENTS TO AUTHORS

General comments: The authors made meta-analysis on the relation between body-mass index and severity/mortality in acute pancreatitis. They found that a BMI above 25 increases the risk of severe AP, while a BMI > 30 raises the risk of mortality and that a
