**Safe laparoscopic cholecystectomy: Adoption of universal culture of safety in cholecystectomy**

**Vishal Gupta, Gaurav Jain**

### Abstract

The incidence of biliary injury after laparoscopic cholecystectomy has shown a declining trend though it may still be twice that as with open cholecystectomy. Major biliary or vasculobiliary injury is associated with significant morbidity. As prevention is the best strategy, the concept of a culture of safe cholecystectomy has
