Mo1142 EFFICACY OF HEMOSPRAY AND ENDOCLOT IN THE ...

[https://www.giejournal.org/article/S0016-5107\(18\)32178-3/fulltext](https://www.giejournal.org/article/S0016-5107(18)32178-3/fulltext)

Gastrointestinal (GI) bleeding frequently leads to hospital admission and is associated with relevant morbidity and mortality, particularly in the elderly. Due to the increasing administration of direct oral anticoagulants in the last years and the emerging role of antiplatelet agents treatment of gastrointestinal bleeding may be challenging.
