Endoloop ligation after endoscopic mucosal resection using a transparent cap: A novel method to treat small rectal carcinoid tumors

Zhang DG *et al.* Endoscopic treatment for small rectal carcinoid tumors

Ding-Guo Zhang, Su Luo, Feng Xiong, Zheng-Lei Xu, Ying-Xue Li, Jun Yao, Li-Sheng Wang

Abstract

BACKGROUND

Local endoscopic resection is an effective method for the treatment of small rectal carcinoid tumor, but remnant tumor at the margin after resection remains to be an issue.

AIM

To evaluate the efficacy and safety of resection of small rectal carcinoid tumors with endoloop ligation after cap-endoscopic mucosal resection (LC-EMR) using a transparent cap.
